

FACTS

The patented LivePicture is a unique combination of innovation, design and greenery. LivePicture is a picture made of high-quality materials, including a powder-coated steel frame and a system of interchangeable plant cassettes. The watering system included in the frame is enough to water the plants for four to six weeks. This innovative system does not require electricity or a pump to provide the right amount of water and nutrients to the plants. Choose different types of plants to experiment artistically with foliage and colour patterns. A custom-designed LivePicture enhances any living, learning or working environment and adds all the positive features of living greenery.

BENEFITS

- Improves air quality through oxygen production and fine dust absorption
- Increases productivity and creativity
- Vertical greenery does not require much space
- Improves the living, learning and working climate
- Enhances the ambience
- Improves spatial acoustics

FEATURES

- Fast and easy installation
- Integrated watering system
- No electricity or pump required
- Water tank for four to six weeks
- Includes full and empty indicators
- Interchangeable plant cassettes
- Fully recyclable
- Interchangeable frame
- Can be installed on nearly every type of wall
